

23 February 2018

Notice to Growers and Shareholders

Craig Bentley, General Manager Cane Supply and Logistics, has resigned from MSL. Craig will remain with us until the start of the 2018 crushing season before taking up his new role in another organisation. We will review the leadership structures within the Cane Supply and Logistics business units prior to the recruitment of a replacement for this role.

Craig joined the Company in 2012 in the role of Cane Supply Manager and took over the logistics portfolio in 2014. Craig has been responsible for the introduction of a number of initiatives during a challenging time for the Company. These included the bin delivery and harvest strategy, development of the harvest management scheme to encourage earlier season starts, rationalisation of road cane transport operations to improve efficiencies, the improvement of safety systems especially around train separation, and standardisation of logistics contracts.

The Board and I would like to thank Craig for his contribution to the Company over the past five years and wish him well in his future career with his new employer.

Mark Day
