CIRCULAR TO GROWERS AND SHAREHOLDERS

Mackay Sugar pricing and marketing arrangements

Mackay Sugar has today given notice that it will not extend its current export marketing arrangements with Queensland Sugar Limited (QSL) beyond the 2019 season.

It is important to note that growers' economic interest sugar can continue to be marketed through QSL under the terms of the current agreement which continues for the 2018 and 2019 seasons.

Mackay Sugar is aware that a number of growers may wish to continue marketing their economic interest sugar through QSL beyond the 2019 season, and we will work with QSL to establish a new supply agreement for the 2020 season. Such supply agreements (OSAs) are in place and operating successfully in other regions.

Mackay Sugar supports growers' access to full choice for the pricing and marketing of their economic interest sugar.
